14 September 1955

Comptroller

Proposed Bill Regarding Retirement of Government Employees

1. The proposed bill regarding retirement of Government employees has been reviewed. However, this Office does not have any recommendations in addition to those already discussed at the CIA Career Council meeting held on Friday, 9 September 1955.

2. It is the opinion of this Office that employees of CIA should be covered by the Retirement Act applicable to Government employees in general. Any special provision covering CIA employees should be included in CIA legislation.
